

**ICAR**

Infection Control  
Assessment and Response

**QUARTERLY METRICS SNAPSHOT**

April 1, 2021 - June 30, 2021

During the second quarter of 2021, our team added an additional infection preventionist. We also began the expansion of our program into additional ICAR setting types, this includes areas such as oncology, dental, and dialysis. We are pleased to announce the incidence of reactive ICARs related to COVID-19 has greatly reduced. Reactive ICARs related to non-covid outbreaks have increased.
